3. **Kedvenc filmem négy mondatban**

My favourite movie of all time is „The witness" directed by Péter Bacsó. It's about man who just wants to live his normal life in 1960's communist Hungary. He was once arrested by the ÁVO for illegal pig slaughter. But he was promised that if he does what the government asks him to, he will be free. He is played by an actor called Ferenc Kállai.

4. **Commercials**

There is a long commercial time during the film, the aim of the commercials is to make us buy the products. For example:

- medicine
- groceries
- detergents
- electric devices
- cars

Usually, you can see an ideal world.
If you buy that product, you will have no problems or worries.
Commercials try to manipulate people.
